

EASY FLUSH

Raised button makes flushing easy for less abled, elderly or young children.
Flushes with a light touch to button.

Easy to install: the cable immediately adjusts itself to the right height. Suitable for top or front installation.

Adjust your water level using the extendable overflow. Overflow height from 240mm to 290mm can be set by hand, no cutting required.

Versatile: can fit cisterns with either top or front operation and supplied with 1 1/2" and 2" bases to suit all cisterns.

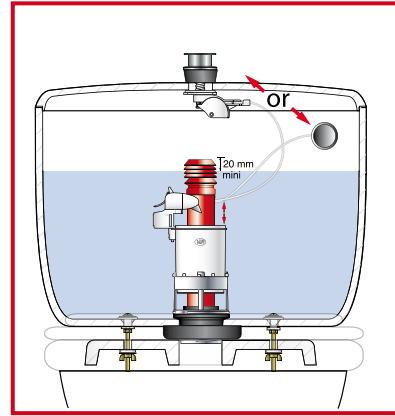

WIRQUIN
