

# UNIVERSEL

## The first bottle trap for the entire house !

Kitchen

Bathroom

Hand-basin

wirquin.com

# ADVANTAGES FOR THE USER

Ø32  
Ø40

**“PUSH FIT” SYSTEM**  
= no adhesives or tools  
required !

**Cast mould washers in  
thermoplastic elastomer**

**Slim-line !**

**Also available with  
washing machine  
connection**

## Universal

No more doubts! No more risks of making a mistake ! **The same bottle trap can be fitted onto wash-basins, hand-basins, bidets or sinks.**  
**This is a UNIVERSAL bottle trap !**

**A single item replaces 5 items** in the current range:

- Adjustable wash-basin bottle trap (SP3158)
- Adjustable bidet bottle trap (SP3178)
- Wash-basin bottle trap with 1/2" inlet and 40 mm diam. outlet (SP3168)
- Adjustable sink bottle trap (SP3213)
- Non- adjustable sink bottle trap (31130002)

Also, the bottle trap with washing machine connection can now be fitted onto a wash-basin.

## Easy to install

**Makes child's play of the job !** No more nuts to tighten, simply push the pipe into the bottle trap outlet.

**A multi-diameter outlet :** the same bottle trap can be used with 4 different diameters of pipe : Ø32 and Ø40 mm for the European market - Ø35 and Ø43 for the UK market.

**No more risk of forgetting a washer during assembly :** the washers are cast mould as an integral part of the bottle trap. No more leaks !

**Connection to the waste outlet :** an elastomer converter is fitted onto the bottle trap in the factory. Customers keep it if they are fitting a wash-basin, hand-basin or bidet (1"1/4 waste outlet). They throw it away and replace it with a standard washer (supplied), if they are fitting a sink (1"1/2 waste outlet).

**Takes up less space :** this is the smallest bottle trap on the market with 50mm water seal (minimum height demanded by the standard in force to keep out smells).

## Easier to clean

Its smooth surface only needs to be wiped with a sponge. Unightly nuts that are real dust-traps have been eliminated.

The end of the trap comes on and off with a simple 1/6th turn.

## Well designed

No longer any need to be ashamed of showing it! The new WIRQUIN bottle trap is **small, attractive and colourful**. It is available in **4 colours**, to blend with any décor.

# TECHNICAL FEATURES

## Washers cast mould in thermoplastic elastomer

**Flow**

- 0.80 litre / second with a Ø32 pipe
- 1.04 litre / second with a Ø40 pipe

### Space needed

- Standard bottle trap: < 125 mm
- Bottle trap with connection for washing machine: < 165 mm

### Effort needed to connect pipes

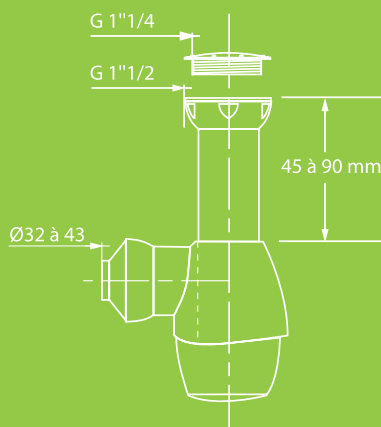

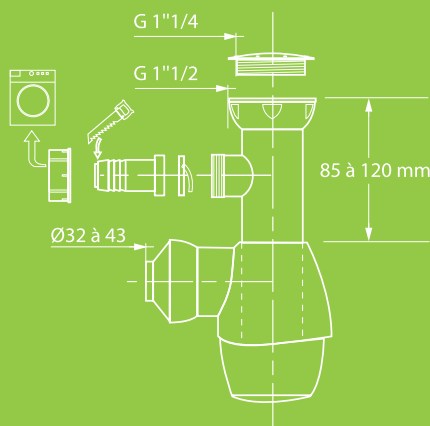

D40 = 140 N  
D32 = 50 N

**Water seal:** 50 mm

**Certification:**  : in progress

**Patent applied for**

## Packaging and box

### Packaging

Transparent PVC thermoformed shell, in French/Dutch  
Dimensions : H.210 x l.140 x p.85 mm

### Box

Box delivered with specific POS information  
64 items per box : 16 white standard bottle traps  
16 green standard bottle traps  
16 blue standard bottle traps  
8 yellow standard bottle traps  
8 white bottle traps with washing machine connection

### Dimensions

In Transport : H.1300 x W.595 x D.395 mm  
In shop : H.1800 x W.575 x D.375 mm
